

Brazil dg energy solutions llc

How is distributed generation changing the energy landscape in Brazil?

Brazil is experiencing a transformative moment in the way it produces and consumes energy. Distributed generation (DG) is changing the energy landscape in the country, creating new opportunities for investments and partnerships, and presenting challenges in the search for sustainability and energy efficiency.

Is Brazil a world leader in solar distributed generation?

Brazil is a world leader in solar distributed generation--and that is unprecedented. There is no country in the world where solar distributed generation is bigger than utility-scale wind and solar generation. This is a unique opportunity and one of our priorities," says the CEO of EDP Brasil, João Marques da Cruz.

How many DG projects are there in Brazil?

Based on information available at ANEEL's website, there are 338,990 operational DG projects that added 4.3 GW of installed capacity. This represents approximately only 2 percent of the total installed capacity in Brazil. In comparison, China has approximately 50 GW and the United States 20 GW of DG installed capacity.

What are EDP Brasil's distributed generation solutions?

One of EDP Brasil's distributed generation solutions is Solar Digital. It offers differentiated conditions and simple, uncomplicated access for small businesses that have energy costs starting at R\$300 and that use low voltage, under the shared generation model.

How many DG companies are there in Brazil?

There are over 10,000 companies in the DG industry chain and more than 5,000 states and municipalities that may structure PPPs for DG projects in Brazil. There are more than 70 different financing lines for DG developers and customers from public and private financial institutions.

Is distributed generation a priority in EDP's strategy for Brazil?

Distributed generation is becoming a priority in EDP's strategy for Brazil. The company is expected to double its installed capacity in this sector to more than 200 MW by the end of the year, with an investment of about R\$2.3 billion by 2026.
