Why did a leading energy company decline a move into offshore solar?

A leading energy company recently declined a move into offshore solar because of the saltwater consideration,which massively affects the durability of the system. PV modules,the key component in solar systems,are not designed for salty environments. Even when PV modules are located onshore but near to the sea,corrosiveness can be a problem.

Wide range 200-820 volt DC to three phase 208-480 volt AC on grid inverter operates at 50Hz/60Hz low frequency, 20kW rated capacity, transformerless design and high power density, LCD display main parameters, with wide MPPT voltage, easy to install, is a perfect solution for grid tied solar power system.

15kW transformerless grid tie inverter for three phase on grid solar power system, which converts 200-820V wide DC input voltage to 208V/ 240V/ 380V AC output voltage feed the power into the grid. Grid tied pv inverter with LCD display, can set main general parameters. The current THD at rated power and in the sine wave<3.5%.

A:Mars three phase solar panel system products can be used in homes, offices, factory,workshop,villas, hospitals, churches, etc.Mars manufacture and design three phase solar panel system base on your machine and your factory appliance, you can choose according to your own needs.if you do not know which model three phase solar panel system is ...
