How much does electricity cost in the BVI?

The 2015 electricity rates for BVI are of \$0.16 to \$0.24 per kilowatt- hour (kWh), lower than the Caribbean regional average of \$0.33/kWh. Like many island nations, the BVI is almost 100% reliant on imported fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

How does Peter Island generate electricity?

The outer islands already use renewable resources to produce energy. Peter Island generates 70% of its electricity from two Wind Energy Solutions hybrid turbines rated at 250 kilowatts (kW) each, backed-up by diesel generators. Cooper Island generates more than 75% of its electric needs from solar PV and uses solar water heating.

Does Cooper Island use solar energy?

Cooper Island generates more than 75% of its electric needs from solar PV and uses solar water heating. Virgin Limited Edition has proposed building a resort on Mosquito Island with enough renewable energy generation to make the site carbon-neutral.

ROAD TOWN, Tortola, VI- The Solar Technology Energy Programme will officially launch in the Virgin Islands in 2025 when the first solar panels are installed, Premier and Minister of Finance Dr the Hon Natalio D. Wheatley (R7) has said.

"Although we are a fossil fuel company... we decided to diversify out of our portfolio into solar," said Bevis Sylvester, Delta's general manager for the Caribbean. A building left in ruins by Hurricane Irma is seen in Road Town, the capital of the British Virgin Islands, a British overseas territory in the Caribbean, June 4, 2018.

We're an award-winning solar energy company serving The U.S. Virgin Islands with a passion for clean, affordable energy. We offer a variety of renewable energy products for every home, every business, and every budget. Our team ...
