

Brunei complete energy solutions

What is Serikandi Kent energy solution?

This EPC project with TotalEnergies Brunei serves as a launchpad to achieve Serikandi Kent Energy Solution's mission of bringing world-class expertise to Brunei Darussalam to meet local energy demands in a reliable and cost-efficient manner through a skilled and empowered workforce.

Can Brunei change from natural gas to hydrogen?

"The country can also opt to change from natural gas production to hydrogen," he said. The Japanese energy expert also said Brunei has the potential to benefit from its association with Japan, Australia, and other countries by fostering collaboration for the transfer and assistance of green technology.

Should Brunei adopt CCUS Technology?

Brunei, a small country with limited solar energy opportunities, should focus on utilising its gas resources to produce hydrogen while also implementing carbon capture, utilisation and storage (CCUS) technologies. By adopting this approach, the country can efficiently harness its gas reserves and take significant steps towards reducing emissions.

Brunei, a small country with limited solar energy opportunities, should focus on utilising its gas resources to produce hydrogen while also implementing carbon capture, utilisation and storage (CCUS) technologies. By ...
