

What is the primary energy supply of Brunei?

The primary energy supply of Brunei comes exclusively from fossil fuels (Figure 1) with total of 3,420 ktoe. The majority of natural gas is exported. Nevertheless, the domestic natural gas utilisation still dominates the primary energy supply (80%). Oil covers the remaining 20% of primary energy supply.

Does Brunei use natural gas?

The majority of natural gas is exported. Nevertheless, the domestic natural gas utilisation still dominates the primary energy supply (80%). Oil covers the remaining 20% of primary energy supply. Brunei's total energy supply is declining in proportion due to low oil price in 2016 which makes Brunei hold their oil production.

Does Brunei Darussalam have a high rate of electrification?

According to the World Energy Outlook which published in 2016 by IEA, Brunei Darussalam has achieved 100% rate of electrification with only 6% of transmission loss. According to Brunei Energy White Paper, the country is planning to cover 10% (954 GWh) of its electricity consumption from renewable energy by the year of 2035.

What is the energy saving potential in Brunei Darussalam?

The energy saving potential that could be achieved through the implementation of legislative measures on EEC, as well as the development of renewable energy in Brunei Darussalam, is about 1.76 Mtoe of the TPES, or equivalent to a reduction of 18.7% from the BAU scenario in 2040.

Will Brunei cover 10% of its electricity consumption by 2035?

According to Brunei Energy White Paper, the country is planning to cover 10% (954 GWh) of its electricity consumption from renewable energy by the year of 2035. The document sets the ground for the renewable energy policy.

What does Brunei Darussalam do?

Brunei Darussalam is focusing on developing downstream energy industries by maximising economic spin-off potential from upstream production and assets. Brunei Darussalam aims to reduce energy intensity by 45% by 2035 from the baseline year of 2005, in line with its regional commitment to the Asia-Pacific Economic Cooperation.
