I am very new to all this but am in the process of installing a Seplos 15.5KW battery with a 200A BMS through a SunSynk 8.8 KW Inverter. I understand I need to connect the battery BMS using the CAN port to the inverter. I am not sure what cable I need, is this something I can buy or do I need to make a special RJ45 cable up. Thanks in advance.

This Seplos BMS 3.0 Type A has integrated communication ports and status lights on one board. Model 13S and 14S are suitable for NCM batteries, while 15S and 16S are for LFP batteries. This BMS model is satisfied for 48V 100A ...
