

What is the solar PV project in Burundi?

The solar PV project in Burundi is a 7.5 MW plant located in Mubuga. Interconnection is expected in Q3 2020, which will increase Burundi's installed electricity capacity by 14%.

Where is a solar power station located in Burundi?

The power station is located in the settlement of Mubuga, in the Gitega Province of Burundi, approximately 15.2 kilometres (9 mi), northeast of the city of Gitega, the political capital of that country. This power station is the first grid-connected solar project developed by an IPP in Burundi.

Who toured Burundi's solar farm in May 2023?

In May 2023, Evariste Ndayishimiye, the president of Burundi, toured the solar farm and personally gave his approval for the power station's capacity to be expanded to 15 megawatts. ^a b c d e Jean Marie Takouleu (26 October 2021).

What does Burundi's solar plant announcement mean for the energy sector?

According to Geoff Sinclair, Managing Director of Camco Clean Energy, which manages REPP: "Once built, the solar plant will add nearly 15% to Burundi's generation capacity using clean energy." (This passage directly answers the question about the impact on the energy sector.)

How many people were hired to operate Burundi's solar power station?

Another estimated 25-50 people were hired to operate the power station. In May 2023, Evariste Ndayishimiye, the president of Burundi, toured the solar farm and personally gave his approval for the power station's capacity to be expanded to 15 megawatts.

Who is behind inspired evolution's solar PV project in Burundi?

Christopher Clarke, Managing Partner at Inspired Evolution, congratulated all parties involved in getting the project to this stage for their part in realising a high development impact solar PV generation plant in Burundi.
