

Can I buy solar panels to generate electricity

Should you buy a solar-powered home?

Buying a solar-powered home can jumpstart your clean energy transition, joining millions of other American households that are powering their lives with sunshine. See more solar energy resources for consumers and learn how solar works.

Can solar panels save money on energy costs?

Yes, homeowners across the US can save money on energy costs by powering their homes with solar panels instead of purchasing electricity from a utility. This is especially true following the rapid rise in grid electricity rates in 2022 and 2023.

Why should you use solar energy to power your home?

Generating energy from the sun is free--using it to power your home can help protect you from rising energy costs. Generate, use, store and charge--all with one fully integrated clean energy ecosystem by Tesla. All of our products work together seamlessly, optimizing your energy usage and savings while minimizing your impact on the environment.

Why should you buy solar panels from solar.com?

Solar.com simplifies the process of buying solar panels by pairing you with an expert Energy Advisor to guide you every step of the way. Better yet, studies by the US Department of Energy have proven that homeowners save money by comparison shopping on solar.com.

Can solar panels produce power all day?

Solar panels can't produce power all day. Most geographical locations experience twelve hours of sunlight at most. After that, you'll have to rely upon stored power in a battery or draw energy from the grid if you have a grid-tie system.

How do I get solar power?

Here are the steps to take to get powered by sunshine. Choose a solar installer. An installer can help you determine whether your roof is suitable for solar panels. Begin by researching qualified, insured installers online or asking for recommendations from people who've gone solar.

Finding an unshaded spot is best, but sometimes shading is unavoidable. Some solar panel systems can minimise the impact of shading using "optimisers". Solar optimisers help improve the overall performance of your ...
