

Can custom lockers be moved

Do you need custom lockers storage?

The need for custom lockers storage is greater now than it has ever been before. The need for custom storage lockers is greater now than it has ever been before. As we move to more open plan offices where hoteling is becoming the norm, employees need a new way to store their personal belongings.

Are custom lockers a good solution for employee storage?

Lockers are an excellent solution for employee storage, but they are needed for many other applications too. Custom Lockers offer a place to securely store police uniforms and gear, and somewhere to keep sterile supplies clean.

Why do I need a locker?

Many projects require lockers to fit into existing alcoves or require a different mix of styles for different users. We are specialists in manufacturing lockers to suit the specific needs of the client and the project. Following our standard process, we work with you to design, supply and install (if necessary) the perfect solution for you.

What is a custom locker?

Custom Lockers offer a place to securely store police uniforms and gear, and somewhere to keep sterile supplies clean. They create a way for college students to ensure those packages get to them safely, a space for athletes to prepare for game day, and peace of mind for spa goers allowing them to relax knowing their personal items are safe.
