Do Canadians still benefit from a greener Homes Grant?

The Government of Canada recognizes that even with a \$5,600 Greener Homes Grant and other available supports, there are still many Canadians who aren't in a financial position to benefit from the program and take on the remaining upfront cost associated with an energy efficiency upgrade.

Can Canada save money on energy bills?

The Government of Canada has invested over \$15 billion in programs to help Canadians upgrade their homes and in turn, save up to hundreds of dollars per year on their energy bills.

What are the different types of energy sources in Canada?

These resources include moving water, wind, biomass, solar, geothermal, and ocean energy. Canada is a world leader in the production and use of energy from renewable resources. In 2022, renewable energy sources provided 16.9 percent of Canada's total primary energy supply*.

Why should Canada invest in Energy Innovation?

Canada's investment in energy innovation is an important part of building our clean economy. Learn more about our contributions to Research, Development and Demonstration projects in Canada.

What is the main source of electricity in Canada?

Hydroelectric power was the primary source, accounting for 60% of the electricity mix. Over the last decade, wind and solar power generation in Canada saw considerable growth. Wind energy increased fourfold to 36 TWh, representing 5.6% of 2020's total electricity generation.

What is Ontario's Green Energy & Green Economy Act?

Ontario's Green Energy and Green Economy Act, 2009 (GEEA), previously in force, took a two-pronged approach to creating a renewable energy economy. The first was to bring more renewable energy sources to the province and the second was the creation of more energy efficiency measures to help conserve energy.

As part of the Strengthened Climate Plan and the Emissions Reduction Plan, the Government of Canada has committed over \$1.5 billion to accelerate the agricultural sector's progress on reducing emissions and to remain a global leader in sustainable agriculture. This includes \$495.7 million for the Agricultural Clean Technology (ACT) Program. Projects and ...

The Canada Greener Homes Loan remains open to new applicants and has not been impacted by the updates associated with the federal grant program. [Login to Canada Greener Homes Loan Portal Register](#) or [Login to the Canada Greener Homes Loan portal](#) below.
