Is Cayman the perfect place to harness solar energy?

Significant improvements are being made in the solar energy industry every year and Cayman is the perfect location to harness the power of the sun. Solar energy can be harvested in two ways: solar photovoltaic (PV), which converts sunlight into electricity and solar thermal, which heats water.

Why is the Cayman Islands a good place to live?

The Cayman Islands is considered to be part of the geographic Western Caribbean zone as well as the Greater Antilles. The territory is a major offshore financial centre for international businesses and the rich mainly due to the state charging no tax on income earned or stored.

Can a non-citizen work in the Cayman Islands?

To work in the Cayman Islands as a non-citizen, a work permit is required. This involves passing a police background check and a health check. A prospective immigrant worker will not be granted a permit unless certain medical conditions are met, including testing negative for syphilis and HIV. A permit may be granted to individuals on special work.

Are expatriate workers allowed to work in the Cayman Islands?

The Cayman Islands presently imposes a controversial "rollover" in relation to expatriate workers who require a work permit. Non-Caymanians are only permitted to reside and work within the territory for a maximum of nine years unless they satisfy the criteria of key employees.

Why is the Cayman Islands a tax-exempt destination?

The Cayman Islands government focused on boosting the territory's economy via tourism and the attraction of off-shore finance, both of which mushroomed from the 1970s onwards. Historically, the Cayman Islands has been a tax-exempt destination, and the government has always relied on indirect and not direct taxes.

Are solar panels duty-free in Cayman?

However, renewable energy equipment, such as solar panels, are in fact duty-free for residential homeowners. Although Cayman enjoys over 300 days of sunshine, you will need to consider an alternative source of power should there be no sun. One such option is the Tesla Powerwall battery.
