The Cayman Islands, a British Overseas Territory, encompasses 3 islands in the western Caribbean Sea. Grand Cayman, the largest island, is known for its beach resorts. Cayman Brac is a popular launch point for deep-sea fishing excursions. ... Cayman has a high solar potential and set a renewable energy mix target of 100% by 2030. Presently ...

A 100 MW solar farm would require approximately 587 acres (about 0.92 square miles) of land. To achieve equivalent daily production as a traditional power plant, a scaled-up 480 MW solar farm would need about 2,822 acres (about 4.41 square miles). This substantial land requirement is a significant consideration for our island's limited space.

Affordable Solar are solar specialists that provide solar power consulting and systems installations in the Cayman Islands. They provide a wide range of services to commercial and residential projects, including the CORE programme and off-grid solar systems, and solar heating solutions for water (laundry, bathing, etc.).
