Meet Ceegsun 30KW Off Grid Solar Kit, the all-in-one hybrid solar power center that can handle anything you throw at it. as a fully independent system to deliver power to remote off-grid locations.

Off grid photovoltaic systems are completely independent of the grid. The energy produced by the solar panels are collected and stored in special batteries that are rechargeable. A device called a charge controller regulates the raw DC power to prevent overcharging and protect the batteries. Batteries store energy in the form of Direct Current, therefore another device called an inverter ...
