

Why does Central Africa need an energy mix?

This is a unique capacity which allows Central Africa to achieve an energy mix and also to boost its electrical power for industrialization and social development needs(health,education,household).

Is Aptech Africa a good company?

Aptech Africa's business strategy has propelled them to unprecedented success in the energy sector. Their experience in PV and solar water pumping is unmatched. My street lighting systems are working perfectly well. I've very happy when the Aptech team checks in on me. I was really impressed by the after sales service.

What can ECA do for Central Africa?

ECA and partners were also called upon to help build the capacity of sub-regional experts,particularly by tooling them with techniques for designing and negotiating bankable projects. In 2020,installed electricity capacity in Central Africa stood at 13.81 Gigawatts,with the predominance of hydroelectricity followed by thermal energy.
