

Central African Republic industrial power system protection

Does the World Bank support the Central African Republic?

The World Bank supports the Central African Republic's goal to transition from extended instability to long-term economic recovery. The Central African Republic (CAR), a sparsely populated country with 6,100,000 inhabitants in 2021, is a landlocked nation in the heart of the African continent with an area of 623,000 km².

How does conflict management work in Central African Republic?

Conflict management happens mostly on the local level in communities, especially when their conditions are generally peaceful. Strong civil society actors and organizations have never existed in the Central African Republic.

What is the post-independence history of the Central African Republic (CAR)?

The post-independence history of the Central African Republic (CAR) has been marked by cycles of violence and chronic political instability. Since gaining independence, the CAR has witnessed five successful coups d'état and several attempted ones.

Is central Africa a member of CEMAC or ECCAS?

The CAR is a member of the Economic and Monetary Community of Central Africa (CEMAC) and the Economic Community of Central African States (ECCAS). However, similar to other African regions, these economic communities remain insignificant when it comes to promoting intra-regional trade.

Do civil society actors exist in the Central African Republic?

Strong civil society actors and organizations have never existed in the Central African Republic. Whereas governments have often invited civil society to participate in policy deliberation, formulation and decision-making, this has mainly been symbolic and not gone beyond simple tokenism.

What is happening in Central African Republic?

Since gaining independence in 1960, the Central African Republic has experienced a series of crises and conflicts, violence and instability. Attempted and successful coups d'état have followed one another. The presence of rebels has become a ubiquitous phenomenon in many parts of the country.
