

# Centrica energy Namibia

Who is Centrica Energy?

Centrica Energy is a renewable energy trading company operating out of eight offices across all time zones to move energy from source to use. Our mission is to drive the green transition while offering sustainable and predictable energy costs for energy producers, suppliers and offtakers. In short, we call ourselves energy movers by nature.

How did Centrica Energy Trading perform in 2023?

Looking for previous reports? Centrica Energy Trading A/S delivered strong financial results in 2023, a year that saw lower commodity prices and volatility. Mild weather, reduced energy demand, and strong gas storage levels drove increased market stability. Explore the 2023 Annual Report and strategic highlights.

Does Centrica have a role in the energy transition?

Centrica has a role at every step of the energy transition. When it comes to energy, we make it, store it, move it, sell it and mend it. Find out how we're energising a greener, fairer future. Net Zero isn't next, it's now. Join us on our mission to energise a greener, fairer future. Supporting our customers through...

Is Centrica Energy a good place to work?

During 2023 we were Great Place To Work® certified, with 94% of employees stating that taking everything into account, Centrica Energy is a Great Place to Work. We're a collection of number crunchers, problem solvers, digital specialists and algorithmic architects - but we're also athletes, creative souls, kite-surfers and much more.

Does Centrica have a role in the transition to net zero?

Centrica probably has a leading position in the UK with a presence across the whole energy ecosystem from generation to customer supply and we are playing an active role in the transition to net zero across all these elements of our business.

How will solar power benefit Namibia?

The generation of solar power will complement Namibia's available green energy portfolio, such as hydro-electricity, which already constitutes more than two-thirds of our installed power capacity. Electrifying key parts of our economy and of our neighbours will spur unprecedented economic activity and growth for Namibia and Southern Africa.
