

CERT Systems founders Alexander Ip and Christine Gabardo have been selected as Breakthrough Energy Fellows, part of the BE network founded by Bill Gates. The BE Fellows program gives global innovators and business experts support to advance the groundbreaking technologies needed to reach net-zero emissions by 2050. With the support of ...

Canadian company CERT Systems Inc. has developed a new process for making ethylene -- the world's most widely used petrochemical, which features in products such as textiles, building materials, food packaging, shampoo, and many more. Ethylene is used to make products lightweight, durable, and waterproof.
