

Will Uzbekistan fund a 250-megawatt solar photovoltaic plant?

TASHKENT, May 21, 2024 -- The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS).

Will the World Bank support a solar photovoltaic plant in Uzbekistan?

Image for representation purposes only. The World Bank on Tuesday (May 21) announced that it will support a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS) in Uzbekistan -- Central Asia's first renewable energy facility with a utility-scale battery storage component.

Does Uzbekistan have solar energy?

Uzbekistan has an average of 330 sunny days a year and the potential for solar energy is huge. Uzbekistan has set an ambitious goal - to generate 30% of its electricity from renewable energy sources by 2030. Harnessing the sun's energy is one factor in making this plan a reality.

Will Uzbekistan have a battery energy storage system?

ADB said it will be one of the first utility-scale renewable energy projects with a battery energy storage system (BESS) component in Uzbekistan. It follows the announcement of the country's first BESS in May 2024 and the connection of the first phase of a 511 MW solar project in March of this year.

Can you buy solar panels in Uzbekistan?

Uzbekistan's government has recently launched a digital online platform which allows owners of private houses to buy solar panels in interest-free installments or a 30 percent reimbursement if they pay it all at once.

Is Uzbekistan a good place to invest in solar energy?

Uzbekistan has an average of 330 sunny days a year and the potential for solar energy is huge. Today, large-scale solar projects are attracting international private investors to the country. "This is green energy. This is our future, the future of our children and future generations."
