The Energy Collective. The Energy Collective is a global retail energy and technology business. We exist to

Collective energy africa limited Slovenia

create and scale digital brands which leverage the power of our proprietary technology platform to disrupt retail markets by outperforming our competitors on both cost and service and allowing all our customers to contribute to the energy transition.

Collective Energy Founder and CEO Andrew MacCalla spent 15 years responding to disasters and supporting health centers as VP of Emergency Response for Direct Relief. During this time, Andrew witnessed first hand what happens to community health centers when the power goes out. Collective Energy was created to prevent this foreseeable problem.
