

Commscope outdoor cabinets Martinique

What makes CommScope unique?

CommScope's outdoor integrated cabinet solutions bring together a wide range of capabilities that reflect CommScope's industry experience, technical expertise and global resources. The highly integrated, modular and open design is a result of 40+ years of customer input, innovative engineering and R&D effort.

What products does CommScope offer?

CommScope offers a complete line of fiber cable assemblies, to support a wide variety of applications. OMX and FEC products offer swift access to entrance facility connections using convenient trays or drawers. For smaller facilities, our BUDI wall boxes offer a compact solution. Ready your network for the High Speed Migration.

Why should you choose CommScope?

CommScope offers a diverse range of frames, racks, and cabinets engineered for exceptional cable management and bend-radius protection in inside plant fiber optic facilities like central offices, headends or exchanges and outside plant cabinets, helping you manage from hundreds to up to ten thousands of fiber optic connections.

Are CommScope outdoor distribution cabinets FTTH compatible?

CommScope outdoor fiber distribution cabinets are uniquely adaptable to almost any FTTH need, and we're eager to work with you to build effective solutions, both for today and for the future.

What is CommScope Netpodium rack system?

CommScope's NETpodium rack system is designed to offer all the features required to support copper and fiber cable management, along with active platforms, in a single 19" 45U footprint. CommScope offers a variety of easy-to-install frames, racks and cabinets specially engineered for network equipment and fiber cable management.

Is CommScope a certified company?

CommScope is committed to the highest standards of business integrity and environmental sustainability, with a number of CommScope's facilities across the globe certified in accordance with international standards, including ISO 9001, TL 9000, and ISO 14001.
