

Does Iraq have a good energy system?

Today, the majority of Iraq's population has grown up in a system that has promised to deliver on energy improvements, but changes in the standard of living have rarely materialized.

Is foreign help enough to fix Iraq's energy problems?

Foreign help is not enough to fix energy issues, domestic reform is necessary. This past July, Iraq and France's TotalEnergies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

Does Iraq have a reliable electricity grid?

Now, two decades after the 2003 US invasion, Iraq has failed to see improvements in the electricity infrastructure. Although the disparity between supply and demand is widening due to population increase and rising temperatures, corruption remains the largest obstacle to a reliable electricity grid.

Where in Iraq will new electricity transmission substations be built?

By next summer, Basra, Amara, Dywania, Kut, Hilla, Nassriya and other areas in Iraq will house new electricity transmission substations that will bring reliable power to millions of people and help industries grow. Vice President, Grid Stabilization, Siemens Energy Middle East.

Will Iraq be able to connect to the GCC electricity grid?

Another planned power initiative aims to connect Iraq to the GCC electrical grid. This endeavor envisions delivering 1.8 gigawatts of electricity by 2025, stretching from the al-Wafra station in Kuwait to Iraq's Al-Faw station in the south.

How will substations affect Iraq's power infrastructure?

The substations will strengthen the country's power infrastructure as part of an agreed roadmap for the electrification of the New Iraq. When fully commissioned, the substations will help to deliver enough power to the national grid equivalent to the electricity needs of more than two million citizens.

In a country with a high carbon intensity for electricity, and where access to reliable electricity remains a priority, the project is a significant contribution to the modernization of Iraq's energy ...
