

Cost of 4 solar panels Nauru

Does Nauru need solar power?

“Now Nauru's power generation mainly relies on diesel. That's expensive and would pollute the environment,” said John Scott, who has been working for the project since 2022. “There is a lot of sunshine here and it's good for solar power. I believe electricity supply here will be much better when the project is completed,” Scott told Xinhua.

Who will implement solar project in Nauru?

The executing agency will be the Department of Finance and Sustainable Development. The implementing agency for solar component of project will be the Nauru Utilities Corporation (NUC). NUC will establish a project management unit within their existing organisational structure to implement the project.

How does Nauru get its energy?

Nauru predominantly sources its energy through diesel power generators. About 5% of its current energy demand is sourced from renewable energy, of which all is from solar power photovoltaic (PV) installations. A 500-kW ground-mounted solar installation was commissioned in 2016, and a number of residences have rooftop solar PV installations.

Who owns Nauru electricity?

The Nauru electrical network is owned and operated by Nauru Utilities Corporation (NUC), a state-owned enterprise, established under the Nauru Utilities Corporation Act of 2011. NUC is responsible for energy generation and energy distribution, and water supply. Nauru predominantly sources its energy through diesel power generators.

How will ADB support the Nauru solar power development project?

ADB also provided GoN support to prepare a Feasibility Study for the recommended Nauru Solar Power Development Project which will comprise of a 6 megawatt PV plant coupled with a 5 megawatt /2.5 megawatt-hour battery energy storage system coupled with a SCADA installation.

How many kW is a 1000 KW PV installation in Nauru?

A 1,000 kW PV installation is under construction. The electrical network comprises 11kV, 3.3KV and LV overhead lines. Asian Development Bank (ADB) provided Government of Nauru (GoN) a transactional technical assistance TRTA to prepare a Nauru power expansion plan.

On average, solar panels cost \$8.77 per square foot of living space, after factoring in the 30% tax credit. However, the cost per square foot varies based on the size of the home. For example, the post-tax credit cost of solar panels for a 2,500-square-foot home is around \$20,000 for a rate of \$7.96 per square foot.

Looking at national average pricing data, we found that the cost of owning a 5 kW solar system ranges from

Cost of 4 solar panels Nauru

\$13,250 to \$21,000, or from \$2.65 to \$4.20 per watt, and that's before considering the benefits of any available tax credits or incentives.
