

How can Benin increase local production?

However, the government of Benin is making serious efforts to increase local production through national projects, specifically the Solar Energy Promotion Project (PROVES) and the Renewable Energy Development Program (PRODERE). The principal RE sources in Benin are hydro energy, biomass energy, wind energy and solar energy.

What is the energy mix in Benin?

Energy in Benin has a diverse energy mix and takes several forms including: solar, wind, hydropower, biomass, fossil resources, and mineral resources. Out of this energy mix, about 60% of energy comes from biomass. Benin is also dependent on energy imports from Ghana and Côte d'Ivoire.

Is Benin a resource rich country?

Benin is a coastal country located in the Gulf of Guinea in Western Africa, which is a resource rich region. Energy in Benin has a diverse energy mix and takes several forms including: solar, wind, hydropower, biomass, fossil resources, and mineral resources. Out of this energy mix, about 60% of energy comes from biomass.

How does Cube energy save you money?

Cube Energy leverages expertise, strategy, and scale to save you money. Numbers don't lie - we formulate recommendations based on data and analysis. From the finer details to the big picture, we take a hard look at everything that moves the needle. Our clients trust us because we trust the numbers.

How affordable is electricity in Benin?

In 2019, in terms of the affordability of electricity for consumers, Benin obtained a score of 81 out of 100 compared with the average value, which is 77.25 out of 100. The government of Benin plans to continue its efforts to make electricity accessible to the population and ensure energy self-sufficiency.

Does Benin have energy resources?

While Benin has many energy resources, it lacks the infrastructure both to convert these resources into electricity and to transport the electricity throughout the country. Energy resources in Benin and most Western African countries are not evenly distributed.

Benin's energy sector has set the vision of being self-sufficient in energy, allowing everyone in the country to have access to modern energy in quantity, quality and at a lower cost, to ensure universal access to clean energy by 2050.

Cubenergy is an innovative manufacturer of C&I and utility-scale stationary Battery Energy Storage System (BESS). By integrating BESS with grid, PV, wind turbine, diesel generator, and other sources of energy with

Cube energy Benin

self-developed Battery System, BMS and EMS, forming a series of standardized, all-in-one, integrally transportable and EPC-free ESS.
