A portable power station and solar generator are ideal backup power sources. Since these devices operate independently of the power grid, they stay clear from any impact of a widespread outage. In other words, when the grid is down, your lights, Wi-Fi, and other essential electronics can still be up and running, thanks to these independent power sources.

The EcoFlow DELTA 2 Max + 220W bifacial portable solar panel can operate up to 3400W of appliances simultaneously, which is more than enough for many apartments and smaller homes..
