Established three years ago, we are a dynamic and innovative solar company that has relocated to Cyprus, driven by our passion for renewable energy, especially photovoltaic technology. Our mission is to help as many households as possible counter rising electricity costs by producing their own power and leaving a green footprint on the world.

Cyprus is blessed with an abundance of sunshine and electricity costs are relatively expensive. This makes Cyprus an excellent place to utilise solar energy to produce electricity just as it is already used to heat water at most households.. While the daily hours of sunshine are not always plenty - particularly during winter - there are more than 300 days with sunshine in Cyprus.

13 ???&#0183; The inauguration of two new solar parks is set to enhance the Electricity Authority of Cyprus (EAC)'s electricity production, marking a significant step toward green energy development. The ...
