

Axiom Exergy | 1,257 ?? ?????????? ??? LinkedIn. Using AI to transform the world's cooling systems into intelligent, flexible, and resilient assets. | Axiom Exergy provides active power management services for portfolios of buildings with large thermal loads. Today, 60-70% of a typical building's electricity bill is driven by WHEN it consumes power, and 28% of all electricity ...

The Axiom team started working together in 2014 on the premise that the last major roadblock to a clean energy future is not cheaper solar panels, wind turbines, or electric vehicles - it's enabling extremely high penetration of intermittent renewable energy onto our electricity grid with load flexibility and energy storage.. To that end, we developed our first product - the Refrigeration ...

Axiom used to chase the geographically and numerically limited subset of grocery stores that would have considered a lithium-ion installation and then sell them on a lower-cost thermal battery.

ZingPR helped Axiom launch its breakthrough product, which can shift supermarkets' peak energy use by up to 40%. Before we get to how it does this, a little background. I met the guys at Axiom Exergy through my work with the Cleantech Open (the world's largest cleantech accelerator -- a program I have supported pro bono for several ...

RICHMOND, Calif., March 11, 2020 /PRNewswire/ -- Axiom Exergy and Clima-Tech Refrigeration & HVAC today announced an agreement in which Clima-Tech will be a preferred reseller and installer of the ...

Axiom Exergy's Refrigeration Battery can increase profit margins for supermarkets and cold storage facilities by reducing peak energy demand by up to 40 percent and shifting electricity ...

However, exergy is a well-defined concept in thermodynamics, and understanding it is the first step to understanding why our CTO and co-founder, Anthony Diamond, decided on the name Axiom Exergy. Exergy takes its basis from the Second Law of Thermodynamics, which states that the total disorder of an isolated

system will tend to ...

Axiom Exergy has raised \$2.5 million from notable investors including the Element 8 Fund, Victory Capital, the MIT Angels, angel investors on the Propel(x) platform, the Sierra Angels, JB Straubel (co-founder and CTO of Tesla Motors), and other undisclosed investors. Axiom Exergy's growing pipeline includes over \$5 million in orders. The funding, ...

Czechia is the fourth-largest net exporter of electricity in the EU, right behind France, Germany, and Sweden. It exports most of this electricity to Austria, Slovakia, and Germany. In Czechia, electricity is produced using coal (50%), nuclear power (35%) and natural gas (5%). Although fossil fuels are still forced play a major role in the ...

Axiom Exergy's president and co-founder Amrit Robbins spoke of "refrigeration batteries" as an energy storage solution for supermarkets. "We take a fundamentally different approach -- rather than ...

About. Patrick Thom is an experienced sales executive who currently works as an account executive at Axiom Exergy. Prior to their current position, Thom held a variety of sales roles at UpKeep and inMotionNow.. At UpKeep, Thom served as an account executive team lead, responsible for leading trainings on specific sales skills and acting as a bridge between the ...

Customers of the the Axiom Cloud platform, such as Whole Foods Market, Arcticom, and Clima-Tech use the AI software to autonomously optimize energy and maintenance for commercial refrigeration systems

Axiom Exergy's co-founder Amrit Robbins started the firm in his garage in 2014. And today, only three years later, the firm has transitioned from pre-revenue startup to a revenue-generating ...

Amrit Robbins found that out the hard way. The Stanford alum founded and led Axiom Exergy, an East Bay startup that raised at least \$12.5 million to equip grocery stores with thermal batteries...
