

What are Qualitas energy investments?

These investments have been deployed through five vehicles: Fotowatio / FRV, Vela Energy, Qualitas Energy III, Qualitas Energy IV, and Qualitas Energy V. Qualitas Energy's existing portfolio currently holds 11 GW of operating and development energy assets across Spain, Germany, the UK, Italy, Poland, Chile, and the United States.

Why is Qualitas energy a sustainable company?

That is why Qualitas Energy was created and why our business and our investments aim to achieve sustainable ends, whilst generating returns for our investors, who like us, believe in a better future. We are firmly committed to reducing the impact of our footprint by offsetting our office emissions and becoming Carbon Neutral.

Who are Qualitas Energy's Partners?

Qualitas Energy is proud to include a wide variety of global investors as partners, including global consultants, university endowments, asset managers, charities, significant international and national family offices and a broad range of retail and individual investors as well.

Where is Qualitas energy located?

The Qualitas Energy team is composed of more than 500 professionals across fifteen offices in Madrid, Berlin, London, Milan, Hamburg, Wiesbaden, Trier, Cologne, Stuttgart, Warsaw, Wroclaw, Santiago, Durham, Bristol, and Edinburgh.

How much energy does Qualitas energy produce?

Since 2020, Qualitas Energy has produced sufficient energy to power 1.54 million homes and, since 2021, has successfully avoided emissions of 1.32 million metric tons of CO₂ equivalent.

How is energy used in Czechia?

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.
