The energy transition: key facts. The planet's population will grow by 75 million people a year between now and 2040. 75 million more people who, like the seven billion humans already on earth, will need food, clothes, transport, and heating.. Meeting their needs will mean making better use of the energy available in order to overcome at least three key challenges:

Antigua & Barbuda U.S. Department of Energy Energy Snapshot Population Size 96,286 Total Area Size 440 Sq.Kilometers Total GDP \$1.61 Billion Gross National Income (GNI) Per Capita \$15,890 Share of GDP Spent on Imports 47.8% Fuel Imports 4.5% Urban Population Percentage 24.50% Population and Economy

In 1998, the CGE Energy Services division was renamed to Dalkia and continued to be a subsidiary of the newly renamed Vivendi. [4] It signed an agreement with Électricité de France in 2000 to build an international presence and expand its range of services, hence becoming a jointly owned company. [5] Dalkia also bought the Clemessy Group, which specialises in ...
