

How can Djibouti achieve its energy goals?

Djibouti's substantial potential for geothermal electricity generation, along with its rising capacity to produce energy from wind and solar power plants, should help the country reach its goals in coming years. In addition to the growing need for generation capacity, the expansion of renewable energy is key for Djibouti to diversify its economy.

Who is shakti power solutions?

Shakti Power Solutions Pvt. Limited, Formerly known as Shakti Powertronix, established in 2002 with over 21 years of industry expertise, leads in power backup, solar energy, water treatment, and safety audit consultancy. Renowned for quality, it serves diverse industries with tailored solutions, making a significant impact.

How is Djibouti reducing its dependence on imported power?

Djibouti is also working to reduce its dependence on imported power by investing in domestic production and diversifying its energy mix. The government has ambitious plans to become the first country in Africa to fulfil 100% of its electricity demand from clean energy sources while also extending the power grid to reach 100% of the population.

How does Djibouti produce electricity?

This is mostly supplied by thermal power plants that utilise oil and diesel as fuel. The two primary plants in Djibouti City have a combined generation capacity of roughly 122 MW, with two smaller plants located in Obock and Tadjoura.

Does Djibouti have solar energy?

Djibouti has significant solar energy potential, with an estimated average daily global horizontal irradiance of 4.5 to 7.3 KWh per sq metre across its territory. The construction of the first large-scale solar generation project began in November 2022 in the Gran Bara Desert, which is located in the country's southern region.

What is the Djibouti office for geothermal energy development?

The Djibouti Office for Geothermal Energy Development (Office Djiboutien de Développement de l'Energie Géothermique, ODDEG), directly overseen by the presidency, is charged with developing the country's geothermal energy potential. ODDEG was set up in 2013 to expand and operationalise the sector.

Modulon Series Ups The Delta UPS Modulon series, designed for power ratings over 20kVA, features a three-phase modular architecture.
