Who is DNV - energy systems?

DNV - Energy Systems | 142,597 followers on LinkedIn. Transitioning faster to a deeply decarbonized energy system | We provide assurance to the entire energy value chain through our advisory, monitoring, verification, and certification services.

Why should you join DNV energy systems?

By joining DNV Energy Systems, you will collaborate with like-minded experts across the globe on innovative projects that are driving the energy transition forward. Here, you'll find every opportunity to learn, grow and earn our trusted reputation. Every day, we live our important purpose. The challenges we solve are unique.

Can energy Islands be used as energy distribution hubs?

Initially, many energy island concepts will mainly serve as electricity distribution hubs. However, there is a growing need to convert renewable-based power to molecular fuels, to supply clean energy to sectors such as industrial heating, maritime shipping, or aviation that have few alternatives to decarbonize.
