What is 0% VAT on solar panels?

The 0% VAT on solar panels in the UK is a temporary measure, set to last until 31 March 2027. From 1 April 2027 onwards, the VAT rate on solar panel supplies will go back to the reduced rate of 5%, in line with the UK government's financial and renewable energy goals. Does 0% VAT apply to solar batteries?

Are solar panels VAT free?

Whether you're buying a standalone solar battery or getting a battery installed with a solar panel system, you'll benefit from the 0% VAT rate. This rule changed in February 2024 to include standalone storage batteries at the 0% VAT, regardless of whether you're getting solar panels at the same time. Is there VAT on solar panel income?

Do solar panels detract from a property's value?

Solar panels certainly won't detract from a property's value, and may well increase a property's saleability. However, the cost of solar panel installation is around £6,000 to £10,000.

Are solar panels tax deductible in the UK?

According to the UK government's list of Energy Saving Measures (ESMs), most solar photovoltaic (PV) panels installed on residential properties in Scotland, England and Wales (plus Northern Ireland, as of 1 May 2023) are exempt from VAT, meaning there's no VAT included in the purchase and installation costs.

Do solar panels devalue a home?

The good news is, as well as solar panels making your home more likely to make it onto a buyer's wish list, there is also a financial uplift. Research on the subject returns a variety of different numbers, but it's clear that when it comes to myths about solar panels, it's no longer true that solar panels devalue a property.
