

Dominica novo energy

Does Dominica rely on diesel?

Currently, Dominica relies heavily on diesel for about 70 per cent of its electricity. However, DOMLEC is actively engaged in renewable energy projects to reduce carbon emissions and decrease dependence on foreign oil. DOMLEC's most significant renewable energy endeavour is the construction of a geothermal power plant in the Roseau Valley.

Will Dominica reduce its reliance on fossil fuels?

Roseau, Sept. 25, 2023 (GLOBE NEWSWIRE) -- The Commonwealth of Dominica, a Caribbean Island nation, has been taking substantial steps to revolutionise its energy sector and diminish its reliance on imported fossil fuels.

Does Dominica support the Roseau Valley geothermal project?

Dominica's Finance Minister, Dr. Irving McIntyre, has reaffirmed the government's support for the geothermal project in Roseau Valley. The 2023/2024 fiscal year will see a continued commitment to this project, with a specific focus on the construction of the geothermal power plant and a high-capacity transmission network.

What will Dominica's geothermal project look like in 2023/2024?

The 2023/2024 fiscal year will see a continued commitment to this project, with a specific focus on the construction of the geothermal power plant and a high-capacity transmission network. The geothermal project is an indication of Dominica's pursuit of economic sustainability and resilience.
