BESS owner-operator BW ESS and developer ACL Energy have expanded their development pipeline in Italy to 2.9GW. The additional 14 projects totalling 2.5GW of battery energy storage system (BESS) capacity the pair have committed to co-developing builds on the existing 395MW of capacity, spread across three projects, announced in February 2024.

Aquila Clean Energy EMEA has started construction on a 50MW BESS in Finland, while MW Storage has launched two new projects in the country. Aquila, a developer and independent power producer (IPP), has ...

Our stay at El Beso Ocean El Faro in the Dominican Republic was a huge disappointment from the very beginning. The room we were assigned was outdated, in desperate need of renovation, and had a nonfunctioning AC system. The electrical outlets were falling apart and the entrance of the room door was laden with insects.

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisi n Nacional De Energia (CNE) of ...

Developer and optimiser Ingrid Capacity and investor BW ESS have commissioned a 211MW/211MWh BESS portfolio in Sweden, the largest in the Nordics, they claimed. The inauguration of the 14 battery energy storage system (BESS) projects last week was attended by the minister for climate and the environment in Sweden, Romina Pourmokhtari.

The Dominican Republic's National Energy Commission (CNE) issued a resolution in February 2023 that requires BESS storage to be paired with large solar assets. However, the remuneration is not yet clear and developers are concerned about interconnection delays for their BESS assets.

The Dominican Republic's national energy commission CNE has granted a definitive concession for the construction and operation of a 49.98-MW/60.04-MWp solar farm equipped with a battery energy storage system (BESS).

The technology provider of the BESS has not yet been revealed nor when the project is expected to come online. The CNE said that Dominicana Azul will generate 176.4GWh of energy a year for dispatch on the National ...
