

About 50% of Zimbabwe's electricity demand is driven by the mining and other heavy industries. Despite having a vast renewable energy potential, 18 IPPs produce just about 136 MW of power for own consumption or for trading, out of which 36 MW is generated from Renewable sources. The rest of their production is dominated by government owned power entities.

The Republic of Zimbabwe has a population that is about 16 million people; the majority, about 76%, live in rural areas. This is a very important detail in light of how many crops are produced by Zimbabwe: coffee, corn, wheat, sugar, tea, and cotton. [1] This agricultural aspect of life is apparent in many of the dances they perform [2] The official language is English, although the ...
