

EAS Batteries GmbH | LinkedIn ??? 2,084? | Power you can trust | For more than 20 years, EAS has played an essential role in the battery industry with high power solution and innovative manufacturing technologies. EAS is powering some of the boldest projects of our time and offers tailor-made heavy duty, high power and high energy cylindrical Lithium-ion cells from 7.5 Ah ...

EAS Batteries GmbH. About Britishvolt: Battery pioneer and technology innovator, Britishvolt, is focused on development of next-generation battery cell technologies and associated research and development. It is dedicated to developing the future of electrified transportation and sustainable energy storage, producing best-in-class, low-carbon ...

Batteriezellen für die Raumfahrt und Entwicklung von Hochleistungsbatteriesystemen für Trägerraketen und Rover. EAS bietet nicht nur herkömmliche Batteriezellen für die Raumfahrt an, sondern entwickelt und baut auch Batterielösungen für die Raumfahrt, die alle Anforderungen an die Qualität des Entwurfs-, Test- und Produktionsprozesses erfüllen, einschließlich der ...

EAS Batteries supports OneD Battery Science in the development of the SINANODE active material for use in round cells for the automotive industry. The aim is to develop a cylindrical cell in the 46900 format with the highest possible energy density and at the same time a long service life. ... EAS Batteries GmbH Lokomotivenstraße 21 99734 ...

Anlagevermögen steigt 2022 maßgeblich aber Rückstellungen verringern sich außergewöhnlich bei der EAS Batteries GmbH! Im Jahr 2022 verbuchte die EAS Batteries GmbH eine erhebliche Abnahme der Rückstellungen um % im Vorjahresvergleich auf Euro sowie eine außergewöhnliche Steigerung des Anlagevermögens von % auf Euro, was eine Erhöhung der ...

Since its foundation in 1996, the brand EAS has kept the pioneering spirit of the company in the development and production of large format cylindrical Lithium-ion cells using a unique, compact and novel electrode production technology to ...

In 2021, EAS Batteries GmbH honors the 25th anniversary of its production site in Nordhausen. "We celebrate valuable specialized knowledge that has increased over 25 years," says Managing Director Michael Deutmeyer. "We celebrate "power you can trust"." Looking at EAS" history of success is like looking to the future.

PlanetSolar. EAS will supply 4 new battery strings to the MS Tûranor - the largest solar boat ever built -

that has been navigating around the planet running only on solar power for the last five years. EAS's 485Ah NCA cells are currently incorporated into a 1.2MWh battery - which needs to be replaced.

EAS Batteries GmbH is a highly specialised German niche supplier for cell and battery solutions. For 25 years, EAS stands for innovation - for highest safety and quality, fast development times, flexible production and a portfolio of extremely powerful and robust lithium-ion cells. With the Innovation Factory, EAS offers a pioneering service ...

EAS Batteries GmbH, Neun deutsche Unternehmen und Forschungseinrichtungen entwickeln gemeinsam eine neue Lithiumionenzelle. Ziel ist es, die... 7,5 Millionen Euro für eine neue Lithiumionenzelle ...

EAS Batteries????????????,????????????????????????,???????????????????????? ????

The first players in a circular economy for battery technology have positioned themselves, one of them being EAS Batteries. With the Battery Circularity project of the CIRCULAR REPUBLIC initiative of the Munich-based start-up centre UnternehmerTUM, a so-called "proof of concept" shows that a completely closed lithium cycle for battery active materials is on the verge of ...

EAS Batteries GmbH: EAS has played an essential role in the transition to a world of high power electric equipment with its lithium ion cells and modules. The ultimate aim is to achieve innovative power-management perfection, crafted for the individual needs of industry clients coming from marine, space, defense, public transportation, construction and many others in Europe, Asia ...

How does EAS solve the battery technology challenges in the development of AGVs? "EAS designs the battery as an integral part of the driverless transport system. If we are involved in the development of an AGV right from the start, we can supply a battery that precisely meets the requirements of its future application. ... EAS Batteries GmbH ...

EASy Marine ®, the modular LFP battery system for the maritime industry, complies with the European Standard of Technical Requirements for Inland Navigation Vessels (ES-TRIN). The market-leading maritime classification society DNV GL has now formally confirmed the IEC62619 and IEC62620 standards after successful testing and included them in the DNV GL certificate: ...

Do you need customised battery packs, batteries, battery systems, battery management systems, cylindrical cells or individual components? We will be innovative for you. Send us an e-mail to innovation@eas-batteries or simply call us: +49 3631 46703-250.
