

# EasyPower Sint Maarten

What type of power socket does Sint Maarten use?

The power sockets on Sint Maarten are of type A and B. The standard voltage is 110 V at a frequency of 60 Hz. You need a power plug (travel) adapter on Sint Maarten.

Do you need a power plug adapter on Sint Maarten?

On Sint Maarten, they use power sockets (outlets) of type A and B, like in the United States. You need a power plug adapter on Sint Maarten for sockets type A. Sockets type B can fit your plugs, but may not always be available locally. We don't sell power plug adapters.

Who is St Maarten's electrical specialist?

St Maarten's Electrical Specialist! We are one of the largest electrical retail and services businesses in the Caribbean. We sell electrical and electronic products, parts and services for land, marine and generators. We are in Colebay, St Maarten.

Do I need a voltage converter on Sint Maarten?

You don't need a voltage converter on Sint Maarten. To be sure, check the label on your devices. Some devices never need a converter. If the label states 'INPUT: 100-240V, 50/60 Hz' the device can be used in every country in the world. This is common for devices with chargers like tablets/laptops, photo cameras, cell phones, toothbrushes, etc.

What languages does EasyPower support?

EasyPower's native language support is English. The software is also available in Spanish, Portuguese, and Chinese, although updates to these languages may not be available until after the English version is released. The software menus, dialog boxes, documentation and online help are supported in these languages.
