Eaton offers Hot-Swap PDUs, which make any UPS hot-swappable, as well as Hot-Swappable Modular UPS Systems, which integrate a detachable Hot-Swap PDU. The key component of the hot-swappable design is a modular power distribution unit (PDU) that combines all input and output power connections with a manual bypass switch.

Eaton's mission is to improve the quality of life and the environment through the use of power management technologies and services. We provide sustainable solutions that help our customers effectively manage electrical, hydraulic and mechanical power - more safely, more efficiently and more reliably.

The FlexPDU series is compatible with any UPS below 3 kVA. These PDUs offer multiple mounting options for rack enclosures, wall mounting or connection at the rear of the UPS. Eaton FlexPDU rack PDUs for network closets, server rooms & data centers. rackmounted, wallmounted or connected at the rear of a Eaton UPS in 3 different ways
