What makes ecobat a sustainable company?

At Ecobat, our operations are centered around sustainable processes and practices for the safe, effective handling of lead. Recycling and resource recovery comprise more than 80% of our business. Our closed-loop recycling approach helps us maintain the supply of lead while reducing the overall environmental footprint of lead.

What is ecobat solutions doing in 2022?

In 2022, Ecobat Solutions offered pan-European collection, including critical batteries, and recycled in both the UK and Germany. Process upgrades will take place at both facilities in 2023 to increase the volume of batteries recycled and the recovery of metals recycled. In addition, construction of the first North American facility began in 2022.
