

### Egypt solar cheaper

#### How much does solar power cost in Egypt?

According to the International Renewable Energy Agency (IREA), solar power in Egypt can be produced for as little as \$0.02/kWh, whereas fossil fuel-generated electricity can cost over \$0.06/kWh. Hurricanes, floods, fires, and earthquakes are natural disasters that impact people globally. These disasters can cause power outages.

#### Are solar panels a viable long-term option for Egypt?

Also,high solar panel prices deterred the government from considering solar a viable long-term option for Egypt. Off-grid development appeared to be solar energy's only economically viable application. But prices of solar panels have fallen over the past few years.

#### Why is Egypt a good place for solar energy?

It also benefits from the best solar resources in the world. According to Barghouth,"the combination of these elements makes Egypt a very fertile ground for innovative applications of solar energy,whether off-grid,on-grid,large scale,or small scale."

#### Does Egypt need solar energy?

All fields are required. Egypt has the potential to achieve sustainabilityby using solar energy to reduce reliance on non-renewable sources and promote a sustainable future.

Will Egypt's energy landscape undergo a transformation?

With the rapid growth of renewable energy, it is inevitable that Egypt's energy landscape will undergo a transformation. Schneider Electric provides solar solutions ranging from residential solar power for homes to microgrids. Our goal is to work closely with our partners and the community in Egypt to offer accessible solar solutions.

#### Is Egypt a good country to use solar technology?

Egypt has a wealth of advanced solar technology,groundbreaking ideas, and abundant tropical sunshine, making it an excellent countryto utilize solar technology and achieve its global climate change objectives.

Through Egypt-PV, residential and commercial consumers can pay up to 25% less for solar systems, while on-lending programs by multilateral lenders like the European Bank for Reconstruction and Development (EBRD) have given SMEs access to finance to cover the costs of adopting greener technologies.

With Onasolar Net-Metering Solar Energy Solution, you can benefit from the sun to produce your electricity and have your own Solar System and get a FREE OF CHARGE electricity bill up to 20 years. Or Reduce your Electricity bills up to 15% through buying electricity from us.
