

# Egypt solar portable generator for camping

What can a solar generator be?

However, in these days of renewable energy, we're rethinking the idea of what a generator can be. Solar generators (a.k.a. portable power stations or portable power banks paired with a solar panel) seem to be everywhere now. It's no surprise: Solar generators are smaller, quieter, and more environmentally friendly than their predecessors.

What is the best solar generator for a campervan?

They are designed to power individual devices. Things like: The best solar generator for pop-up campers, travel trailers, and class B campervans would be anything over 500 watts. This amount of power should give you enough stored energy to last most of the day without having to count up all of the watt-hours you're using.

Do you need a solar generator?

Unless you were eking out a survivalist lifestyle in a cabin in the woods, you probably didn't have much need for one. However, in these days of renewable energy, we're rethinking the idea of what a generator can be. Solar generators (a.k.a. portable power stations or portable power banks paired with a solar panel) seem to be everywhere now.
