

"The Maldon battery energy storage system is Eku Energy's first project to reach commercial operation in the United Kingdom, and we are excited to be delivering critical energy storage capability to the UK network," said Daniel Burrows, CEO of Eku Energy. "Battery energy storage provides important firming capability to increase the grid ...

The ACT government has selected Macquarie Group's newly formed global battery group Eku Energy to build one of the largest big batteries in the country in the national capital, and featuring an ...

In 2022, Macquarie Asset Management launched Eku Energy, amalgamating its existing activity in battery storage to create an energy storage business with a global portfolio of utility-scale projects. To succeed with ...

Eku Energy, the London-headquartered joint developer of the 250 MW/500 MWh Williamsdale battery energy storage system (BESS), has committed AUD 500,000 to the battery storage and grid integration (BSGI) program at Australian National University (ANU).. The cash will support R& D activity to enhance future uptake and integration of battery storage ...

Eku said the Rangebank battery is the second largest in Victoria - behind Neoen's 300 MW/450 MWh Victoria Big Battery - but the new site is sure to be overtaken soon. Projects in the pipeline include an approved 350 MW/700 MWh site being developed in western Victoria by Melbourne-headquartered ACEnergy .

Energy storage developer Eku Energy is set to begin construction on two new battery energy storage system (BESS) projects in the UK totalling 130 megawatt-hours (MWh).. An order has been placed with NHOA Energy, a business unit of NHOA Group (formerly Engie EPS), for the delivery of two stand-alone battery systems for projects in Basildon in Essex and ...

Basildon is a 28MW/56MWh Battery Energy Storage System located in Essex, England, to the east of London. Construction is due to commence in early 2024 and the battery is expected to be operational in Q4 2024.
