

The National Energy Policy to 2024 of El Salvador guides the national actions on energy, following main principles: ensure high quality level and continuous and affordable energy access, decrease fossil fuel dependency and mitigate ...

El Salvador has reached a significant milestone in its energy sector: a remarkable 10% increase in geothermal energy production. This boost, attributed to the innovative recycling of water vapor through a binary cycle system, underscores the nation's commitment to clean, continuous energy. President Nayib Bukele proudly shared this advancement, ...

De acuerdo con José Mario Basagoitia, Gerente de Ventas Retail de Puma Energy, en El Salvador ya son más de 53 mil usuarios que ahorran de manera fácil y disfrutan de la mejor experiencia con ...

El sector de energía en El Salvador ha experimentado un crecimiento significativo en los últimos años, posicionando al país como un líder regional en la transición hacia fuentes de energía renovables, más limpias y sostenibles.

El Salvador is set to develop its first nuclear research reactor by 2030, a significant step in the country's energy transition. During a recent webinar organized by @OLADEORG, David Alvarezc, Director General of Energy, Hydrocarbons, and Mines, emphasized the vital role of nuclear energy in addressing challenges such as droughts and ...

El Salvador: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across ...

OverviewElectricity supply and demandAccess to electricityService qualityResponsibilities in the electricity sectorRenewable energy resourcesHistory of the electricity sectorTariffs and subsidiesEl Salvador's energy sector is largely focused on renewables. El Salvador is the largest producer of geothermal energy in Central America. Except for hydroelectric generation, which is almost totally owned and operated by the public company CEL (Comisión Hidroeléctrica del Río Lempa), the rest of the generation capacity is in private hands. With demand expected to grow at a ra...

This initiative is poised to enhance El Salvador's energy sovereignty and align the country with international standards. Daniel lvarez, president of CEL, emphasized that OIPEN will function as an autonomous entity responsible for directing its operations and appointing the necessary technical and administrative staff.

The size and type of the plant needed to meet El Salvador's energy demands are still under consideration. Despite questions from Congresswoman Claudia Ortiz (Vamos), lvarez could not provide precise figures on the state's investment over the seven-year plan. He emphasized that the numbers are still being analyzed, with a focus on ...
