

El Salvador novel energy solutions

How does EDP work in El Salvador?

By shifting a significant amount of power supply to natural gas,EDP reduces El Salvador's reliance on diesel and heavy fuel oil-fired power generation,offsetting 600,000 tons of carbon dioxide emissions per year,and provides grid support to facilitate more renewable energy penetration,further diversifying the country's energy mix.

What are El Salvador's green energy ambitions?

El Salvador's Green Energy Ambitions: 95% Renewable Projects Set to Transform the Nation in 2024. - El Salvador in English El Salvador's Green Energy Ambitions: 95% Renewable Projects Set to Transform the Nation in 2024.

How will EDP help El Salvador meet its climate goals?

In addition to meeting nearly one-third of El Salvador's energy demand,EDP is projected to help the country meet its climate goals by reducing carbon emissions by 600,000 tons annually. The project has also been a catalyst for job creation and growth in the country.

When did El Salvador's EDP power plant start operating?

Despite the enormous challenges,including supply-chain disruptions,travel restrictions,airport closures,global financial volatility,and Salvadoran COVID-19 mitigation measures and regulations,the power plant began commercial operation in October 2022. EDP is a transformative investment in El Salvador's clean energy future.

Who financed El Salvador's infrastructure project?

The more than \$1 billion transformative infrastructure project, the largest-ever private investment in El Salvador, was financed by leading global financial institutions U.S. International Development Finance Corporation, International Finance Corporation, IDB Invest, Finnish Export Credit Ltd and KfW IPEX-Bank.

What are the upcoming projects in El Salvador?

The upcoming projects in El Salvador include the construction of a Biogas Power Generation Plant on the Acelhuate River in San Salvador, the commissioning of a photovoltaic plant at the 15 de Septiembre Hydroelectric Plant, and the establishment of a wind park in Metapán, Santa Ana.
