

# Electric solar system Grenada

Does Grenada have solar power?

Solar photovoltaics (PV) have high potential on Grenada because the country's global horizontal irradiation exceeds 5 kWh/square meters per day. A 2- to 4-MW PV installation is planned, but no utility-scale solar plants are currently in operation.

How much does solar cost in Grenada?

According to data from 2014, the costs of utility-scale solar in Grenada are estimated to be between \$0.21/kWh and \$0.44/kWh; wind costs are estimated to be between \$0.05/kWh and \$0.20/kWh.

Does Grenada have electricity?

Grenada's electrical grid stretches across the three main inhabited islands and is served by a single electrical utility, Grenada Electricity Services Limited (GRENLEC), which has the exclusive license to generate, transmit, distribute, and sell electricity through December 31, 2073.

Does Grenada get electricity from diesel?

(Picture: Martin Falbisoner) With abundant sunshine and three active volcanoes, the Caribbean islands that make up Grenada are perfect for solar and geothermal power. Yet, despite the government's concern about climate change, they get nearly all their electricity from expensive and polluting diesel.

How much does electricity cost in Grenada?

The 2015 electricity rates in Grenada are \$0.34 per kilowatt-hour (kWh), in line with the Caribbean regional average of \$0.33/kWh. Like many island nations, Grenada is almost 100% reliant on imported fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Does Grenada have a wind farm?

Grenada has had success with implementing energy efficiency and renewable energy projects. To date, GRENLEC has assessed five sites on the main island and two on Carriacou for wind farm feasibility. A wind-diesel hybrid has been discussed for Petite Martinique, but its development is on hold.

Looking for the best solar companies in Grenada? Installing a solar panel system is an exciting project that many homeowners find rewarding for their wallets, communities and the planet. Solar power isn't just good for the environment -- your budget will thank you too. With solar power, you can save an average of \$18,000 over 20 years, and ...

Having an AIMS Power inverter is crucial in Grenada because backup power systems are so imperative if living on the island.. Grenada electricity is 230 Vac 50 Hz, but power outages are not uncommon due to extreme tropical weather and electrical systems that can be unreliable. AIMS Power inverters, inverter
