

What is the Guide to solar energy in Sudan?

"The Guide to Solar Energy in Sudan" is the first booklet of its kind in Sudan that targets consumer awareness at a "grass root" level, proudly developed by Clean Energy 4 Africa, and supported by several of the largest solar energy companies in the country.

Why is solar energy important in Sudan?

Solar energy is highly attractive as a primary renewable energy source that can contribute immensely to increasing energy access in Sudan. The location of Sudan as part of sub-Saharan Africa enriches the solar potential. The average temperature ranges from 28 to 39°C.

Is solar energy making a comeback in Sudan?

Fortunately, the country is now witnessing a comeback to solar energy as it is an effective tool to drive development, employment, and stability - particularly in rural and agriculture-focused communities. In Sudan, access to energy is a critical tool, and solar is an effective way to achieve this.

What is the first-ever directory of solar energy companies in Sudan?

The first-ever directory of solar energy companies in Sudan The Guide was officially inaugurated in a hybrid event held on March 31st, 2022 at the headquarters of 249Startups- one of the leading startup incubators in Sudan.

How much electricity does Sudan need?

Estimates put Sudan's electric needs at about 3800 megawatts at the moment. Existing electric supplies reach about 40 percent of the population and there are problems of inadequate electric supply with recurring outages that continue for long hours. What about the private sector's experiments in the domain of solar energy?

How can Sudan achieve energy self-sufficiency?

Encouraging solar and wind power in the country's energy portfolio could help Sudan achieve its goal of energy self-sufficiency. Egyptian policies such as nurturing and promoting renewable technologies and scientific research, feed-in tariffs, and tax exemptions could help Sudan achieve its objectives.

The Juba Solar Power Station is a proposed 20 MW (27,000 hp) solar power plant in South Sudan. The solar farm is under development by a consortium comprising Elsewedy Electric Company of Egypt, Asunim Solar from the United Arab Emirates (UAE) and I-kWh Company, an energy consultancy firm also based in the UAE. The solar farm will have an attached battery energy storage system rated at 35MWh. The off-taker is the South Sudanese Ministry of Electricity, Da...
