

Elemect energy Bermuda

What is Bermuda Electric Light Company (Belco)?

Bermuda Electric Light Company (BELCO) has one primary objective--to supply our customers with safe, reliable, affordable electricity. Our ultimate goal is to become a renewable energy company and we are working steadily towards that goal. My personal commitment to the people of Bermuda--our valued customers--is honest and transparent communication.

How much electricity does Bermuda use?

Large commercial organizations use about 40% of electricity produced. The standard voltage in Bermuda is 120 V and the standard frequency is 60 Hz AC. Flat, two-pronged plugs (Type A) are in use. All US and Canadian appliances work on the island, without voltage converters or adapters.

Should Bermuda build a fossil fuel power plant?

No one wants a fossil fuel power plant in their backyard but with Bermuda's limited landmass, the only short-term option was to build a generation plant while the long-term strategy calls for a big change to a renewable energy future. A culture of change is what we are implementing in our Company.

Are offshore renewable resources needed in Bermuda?

"Due to Bermuda's land constraints, offshore renewable resources are needed to reach higher levels of renewable generation." Floating solar resources have previously been mostly in ponds and reservoirs but are more recently being developed for the ocean.
