

Elon musk energy storage Northern Mariana Islands

Storage deployments narrowly exceeded Q1's 3,889MWh, which at the time had been the record high for Tesla. The energy division "is becoming our highest-margin business," Musk said, with CFO Taneja adding that deployments of Megapack, Tesla's utility-scale battery energy storage system (BESS) product, were "the key driver there".

Tesla reported losses of around US\$0.36 per share in its quarterly earnings announcement yesterday, despite a flurry of activity around its stationary storage launch last week - yet the company still outperformed the expectations of the investment community.
