

Who is EM3 energy management service?

Peter is an engineer with over 10 years' experience in industrial energy management. He has lead the development of the Energy Management Service at EM3 from its commencement working with large industrial energy users to identify and monitor their energy performance, establish and achieve their targets and objectives.

What is EM3 & how does it work?

EM3 offer a unique service to allow industrial energy users take control of their energy spend through using your data and our expertise and experience to produce energy metrics to monitor and manage your energy. What we offer differs from our competitors in that we aren't just reporting on your data, we are making your data work for you.

What is energy in Liechtenstein?

Energy in Liechtenstein describes energy production, consumption and import in Liechtenstein. Liechtenstein has no domestic sources of fossil fuels and relies on imports of gas and fuels. The country is also a net importer of electricity.

Who are EM3 engineers?

Trusted by our clients as a lead advisor to pharma & medical device and food & beverage manufacturers globally, EM3 engineers are backed by 30 years of industrial energy innovation and leadership. Our engineers are experts in eliminating the guesswork from energy management with cutting-edge data collection and analysis.

Why did SHV acquire EM3?

At SHV Energy, we are striving to make a significant contribution towards the energy transition. To support this strategy, in 2020, we acquired EM3, one of the world's leading industrial energy management and transition partners. The EM3 Team

Is Liechtenstein a solar power station?

Samina Power Station, currently the largest of the domestic power stations, has been operational since December 1949. In 2011-2015, it underwent a reconstruction that converted it into a pumped-storage hydroelectric power station. In recent decades, renewable energy efforts in Liechtenstein have also branched out into solar energy production.

In his new role, Shane is responsible for managing a multidisciplinary team of engineers offering a full suite of EM3 services to our clients, including energy management and consultancy, through to project design, project management and delivery.
