EMC Centera is available immediately. List price begins at \$101,500 for Centera hardware and \$103,200 for Centera software, representing \$204,700 for a 5-terabyte protected (10 terabytes raw capacity) total system configuration. Centera implementations scale from 5 terabytes (protected) to more than one petabyte, in 2.5-terabyte increments.

Dell EMC Centera is an archiving system that uses objects as storage elements with the application or the Centera Universal Access server storing the objects using an Ethernet interface. Dell EMC Centera introduced a new protocol for transferring data and identifying the objects being stored: Content Addressable Storage or CAS.

DMX-4 may get top billing, but EMC isn't ignoring its other platforms this summer, refreshing the Centera, Celerra, Rainfinity and Clariion lines.. In keeping with the energy-efficiency theme, EMC has redesigned its

Centera online archive system to consume less power. EMC designed the new Centera Generation 4 LP (low power) node with low-power processors ...
