

Who is enedo power supply?

Enedo, established in 1975, specializes in high-quality power supply and conversion solutions for industries like rail, medical, LED lighting, and military. With a global presence and over 80 years of combined expertise, Enedo offers innovative, sustainable, and reliable products, tailored to meet specific industry requirements.

Who is enedo & Powernet international Oy?

Enedo, through the strategic acquisitions of ROAL Electronics in 2013, and PowerNet International Oy in 2018, is reimagining the future of power electronics design with a focus on purpose-built, value-added products and solutions that address the ever-changing needs of our customers for today and into the future.

Who is MHE rectifiers enedo?

About Us MHE Rectifiers Enedo is a European designer and producer of high quality electronic power supplies and systems for critical equipment whether in normal or harsh environment. We make electricity better - more reliable, more secure, more energy efficient - and just right to fit its purpose.

Where is enedo located?

With over 80 years of combined expertise across a wide range of industries, Enedo offers practical solutions to complex design challenges. Enedo's head office is located in Finland, with key functions like sales, marketing, and R&D situated in Finland and Italy.

How did the Soci t  B ninoise d'Energie  lectrique project benefit people?

The project benefitted thousands of people, including those living in localities where the Soci t  B ninoise d'Energie  lectrique networks have been strengthened and rehabilitated. Soci t  B ninoise d'Energie  lectrique subscribers also benefitted from prepayment meters and low-cost compact fluorescent light bulbs.

What does corporate responsibility mean for enedo?

For Enedo, the starting point of corporate responsibility is taking sustainability principles into account in all of the company's operations. We want to know and understand our customers, their systems and their challenges better than our competitors - and be vocal about it in our communications.

AC Power Systems. Enedo designs AC inverter and UPS power systems compatible with all battery chemistries. Our modular, high efficiency configurations feature true sine wave output, hot swappable power modules and integrated static switches for on and off-line operation. ... hot swappable power modules and integrated static switches for on and ...

Rail Power Systems. Sort by BCS11120 12kW Battery Charging System 400VAC / 110VDC. Modular Rail approved battery charging system 2 x 6kW, 400VAC/110VDC ... Enedo Headquarters Martinkylantie 43 01720 Vantaa Finland. Tel: +358 9 478 466 info@enedopower . Solutions by Industry. Contact Us;

Enedo's three main product categories are Led Drivers, Power supplies and Power Systems. In 2019 the group's revenue was EUR 43,3 million. Enedo has 394 employees and its main functions are located in Finland, Italy, Tunisia and USA. The group's head office is in Finland and parent company Enedo Oyj is listed on Nasdaq Helsinki Oy.

The new DLD1500 series of constant current, programmable LED drivers are non-isolated, Class I multi-channel power solutions designed for stadium, horticulture, high mast and large area LED lighting. With an IP66 rated sealed enclosure and its unique electrical characteristics, it is also suitable for most outdoor lighting applications, as well ...

100% Satisfaction Guarantee 180 Days Warranty. EndoPowerPro® is backed by a 100% money back guarantee for a full 180 days from your purchase. If you are not completely satisfied with the product, its results, or your experience in the first 180 days, just let us know by sending an email to cs@ogruposix and we will give you a full refund.

Rated for 250W with free-air convection and 400W with forced air, this power supply includes an integral 12V fan output, eliminating the need for an additional fan supply. The power supply can be disabled with a logic signal and dissipates less than 0.5W in stand-by mode allowing for system level Energy Star compliance.

Enedo single output AC/DC power supplies are designed for high reliability and efficiency. Small form factors, flexibility and tight adherence to current safety regulations ensure a quality solution that meets the exact needs for a wide variety of applications. Sort by DDP400-US24-SC-2 ...

The DDP600 AC/DC U-chassis power supplies provide a steady 600 W of regulated DC power through the extended 85 to 305 VAC input voltage range, all in a 4.2 x 7 x 1.6" (107 x 178 x 41mm) form factor. ... Enedo Headquarters Martinkyläntie 43 01720 Vantaa Finland. Tel: +358 9 478 466 info@enedopower . Solutions by Industry. Contact Us;

The new DLD1500 series of constant current, programmable LED drivers are non-isolated, Class I multi-channel power solutions designed for stadium, horticulture, high mast and large area LED lighting. With an IP66 rated sealed ...

The DDP400 sealed AC/DC power supplies are potted and offer IP67 ingress protection. They come in standard output voltages of 12, 24, 36 and 48 VDC, with auxiliary 12V fan and 5V stand-by outputs. ... Enedo

OPUS HE power systems are robust backup power systems that deliver from 2 - 24 kW of output power at 48, 60, 110, 125 and 220 VDC, and from 1.5 - 18 kW at 24 VDC output. The cabinets have standard configurations for 3, 6 or 12 MHE rectifier modules, VIDI+ controllers, connections for mains and battery, and load distribution fuses or MCBs.

Available in 12, 24 and 48 VDC standard output variants, this series of high performance AC/DC power supplies provides up to 200 W of steady output power with moving air, and 160 W with convection cooling over the full 90 - 264 VAC ...

Versatile AC/DC DIN or Wall mount battery chargers that can be used as power supplies or for float charging batteries in stand-by backup systems for industrial and telecom applications. Multiple variations support demanding environmental requirements like shock, vibration, humidity and wide temperature range for renewable energy applications. DC input models also ...

The World Bank financing helped establish N-1 security in the Benin power system, a technical but critical component to power grid resiliency and efficiency. Over 1,500 farmers received training on improved ...

Available in 12, 24 and 48 VDC standard output variants, this series of high performance AC/DC power supplies provides up to 200 W of steady output power with moving air, and 160 W with convection cooling over the full 90 - 264 VAC wide input voltage range in a compact 2 x 4 x 1.48" open frame form factor.
